ROTTING CORE – Founded in 2023 by Jörg, Benny and Albi. With Dominik completing the lineup, the four perform Old School Death Metal.

In September 2024, three songs were released as the rotting core demo on all major music platforms.

The sound is deeply rooted in the early 90s – uncompromising and raw, characterized by powerful riffs, heavy grooves and dark growls.

ROTTING CORE stands for pure, unfiltered Death Metal – honest and unembellished with deep respect for the roots of the genre.
